

BLUE RIVER RESOURCES RESPONDS TO TECHNICAL DISCLOSURE REVIEW

VANCOUVER, BC, (February 14, 2017): Blue River Resources Ltd. (TSXV:BXR) (OTC:BRVRF) (Frankfurt:OBL) ("Blue River" or the "Company") reports that as result of a review by the British Columbia Securities Commission, we are issuing the following news release to clarify our disclosure.

In 2016, Blue River posted a fact sheet dated May 2016 (the "Fact Sheet") on its website that (1) disclosed a mineral resource estimate on the Company's Banlung Project and (2) appeared to be treating historical estimates on the Company's Mazama Copper Project as current resources. Similar information was disclosed on the Banlung Project and Mazama Copper Project website pages. These disclosures did not comply with the requirements of NI 43-101. As a result of the review, Blue River has removed the Fact Sheet from the Company's website and has substantially revised the disclosure on the Banlung Project and Mazama Copper Project website pages. Blue River wishes to emphasis it is not treating the historical estimate on the Mazama Copper Project as current mineral resources.

ON BEHALF OF THE BOARD
BLUE RIVER RESOURCES LTD.

Griffin Jones
President, Director
